Funding Opportunities Weekly Digest – April 1, 2020

We are working hard to keep you updated on new deadlines as they arise. For information and updates on how the Office of Sponsored Programs is responding to COVID-19, [visit our website](#).

UT continues to pursue research and other sponsored activity where work can be done remotely and/or laboratory-based work is done both with existing safety protocols and practicing of social distancing. *Work such as analyzing data, writing and reviewing manuscripts, preparing presentations, developing new grant proposals, convening online discussions with students and lab staff, and online compliance training is strongly advised.*

Submission of new research proposals is encouraged, and the UTIA Office of Sponsored Programs (OSP) is able to assist while conducting work remotely. Should issues arise, please contact Jane Burns at janeburns@utk.edu.

Thank you for continuing to pursue your research, outreach, and scholarly programs with colleagues and students in your research group during these extraordinary times.

Innovations in Nutrition Programs and Services – Demonstration

The purpose of this funding opportunity is to support systematic testing and documentation of innovative and promising practices that enhance the quality, effectiveness, and other proven outcomes of nutrition services programs (NSP) within the aging services network. It is critical that ACL work with the aging services network [i.e., State Units on Aging, Area Agencies on Aging (AAA), and local partners] to modernize these services to ensure that the NSP is achieving its intended outcomes and that every dollar is spent effectively to ensure the sustainability of these services.

Morris Animal Foundation works tirelessly to accelerate promising research focused on improving the lives of animals around the world. We fund the best researchers, conducting the best science, whether in a clinical trial, in the lab, or out in the field. We welcome applications from dedicated scientists who seek not only to discover but to turn discoveries into action for animals.
