Funding Opportunities Weekly Digest–January 11, 2022

To notify the Office of Sponsored Programs of your intent to apply for any of these or other grant opportunities, please submit a Proposal Intake Questionnaire to provide OSP with preliminary information.

Check out the Office of Sponsored Programs website to view more funding opportunities to consider.

Outreach Collaboration with UT Gardens, Knoxville
Interested in partnering with the UT Gardens, Knoxville, in outreach programs to showcase how UTIA employees are working to solve the world's problems? Contact wwelch@tennessee.edu for more information.

Federal
Specialty Crop Research Initiative (SCRI)
SCRI addresses the critical needs of the specialty crop industry by awarding grants to support research and extension that address key challenges of national, regional, and multi-state importance in sustaining all components of food and agriculture, including conventional and organic food production systems.
Application Deadline: 1/21/22 | View Opportunity

Crop Protection and Pest Management
The purpose of this program is to address high priority issues related to pests and their management. The program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive integrated pest management needs (IPM) approaches that are economically viable, ecologically prudent, and safe for human health. The outcomes of the program are effective, affordable, and environmentally sound IPM needs, practices, and strategies needed to maintain agricultural productivity and healthy communities.
Application Deadline: 2/28/22 | View Opportunity

Women and Minorities in Science, Technology, Engineering, and Mathematics Field Programs (WAMS)
The purpose of this program is to support research, education/teaching, and extension projects that increase participation by women and underrepresented minorities from rural areas in STEM. WAMS-funded projects improve the economic health and viability of rural communities by developing research and extension initiatives that focus on new and emerging employment opportunities in STEM occupations.

Limited Submission Opportunity

NOI: 1/18/22 | Application Deadline: 3/31/22 | View Opportunity

National Institute of Food and Agriculture has announced the AFRI 2022 deadlines. To notify OSP of an upcoming proposal, complete the new online Proposal Intake Questionnaire as soon as you start planning to provide preliminary information about your prospective proposal.
Energy Frontier Research Centers
This program brings together diverse world-class teams of scientists to perform energy relevant, basic research with a scope and complexity beyond what is possible in single investigator or small-group awards. These multi-investigator, multi-disciplinary centers accelerate transformative scientific advances for the most challenging topics in materials sciences, chemical sciences, geosciences, and biosciences.

Addressing Evidence-based Health Benefits of Human-Animal Interaction (HABRI)

The vision of (HABRI) is for the human-animal bond to be universally embraced as an essential element of human wellness. To that end, HABRI works to establish the vital role of companion animals in the health and well-being of individuals, families, and communities. HABRI is issuing a call for research proposals to investigate the health outcomes of pet ownership and/or animal-assisted interventions or therapy, both for the people and the animals involved. Application Deadline: 2/24/22 | View Opportunity
