Funding Opportunities Weekly Digest – July 14, 2020

COVID-19 Information

UT Knoxville Office of Research and Engagement — COVID-19 Funding Opportunities

The UT Knoxville Office of Research and Engagement has set up a page of funding opportunities related to the novel coronavirus (COVID-19). The page will be continually updated throughout the coming weeks.

---

**Rural Cooperative Development Grant**
The Rural Cooperative Development Grant program improves the economic condition of rural areas by helping individuals and businesses start, expand, or improve rural cooperatives and other mutually owned businesses through Cooperative Development Centers.
Application Deadline: 8/3/20 [View Opportunity]

**Monitoring Soil Health Impacts of CRP**
FPAC is announcing the availability of cooperative agreement funding to collect, analyze, and use soil health and grassland stand data from CRP-enrolled fields to estimate the relationship between soil health and the quality of the cover. Non-governmental organizations (NGOs) and academic institutions are eligible to apply for the $500,000 of available funding.
NRCS Easement Programs Restoration and Stewardship Assistance
Demonstrating Nitrogen Treatment Effectiveness through Innovative Bench Wetland Systems. NRCS is directing resources toward the restoration of degraded wetlands and associated uplands. In addition, resources will be directed toward stewardship activities on existing easements across the state of Tennessee.
Application deadline: 8/2/20 | View Opportunity

2020 Norman E. Borlaug International Agricultural Science and Technology Fellowship
Application Deadline: 8/7/20 | View Opportunity

Development of a Time Release Study Methodology for Agricultural Goods
Application deadline: 8/7/20 | View Opportunity

Alignment of Pesticide Regulations and Standards
This program aims to support both bilateral and regional approaches to strengthen and align pesticide regulatory systems with those of the United States and international standard-setting bodies by engaging in four categories, including: 1) Registrations, 2) Standards (i.e., MRLs), 3) Compliance, and 4) Research. To accomplish this goal, this project will need to develop a cadre of technical and regulatory experts to conduct strategy development; create action plans; lead workshops, discussions, and other engagements with foreign partners; provide education and extension in regulatory sciences to foreign agricultural specialists; conduct pesticide-focused research; and support the creation of domestic and international residue standards. Experts will assist in identifying areas where pesticide registration systems and standards can be better aligned, prioritize those areas, develop short and long-term work timelines, identify and secure experts to lead implementation of themes within the broader strategy, and support a series of interrelated workshops, extension training, and research to achieve identified goals.
Application Deadline: 8/10/20 | View Opportunity

Chronic Wasting Disease Management & Response Activities 2020
Through this funding opportunity, APHIS is soliciting collaborators who will develop and implement CWD management and response activities, including surveillance and testing as part of an overall management plan, or providing the
information or tools needed to control and prevent CWD. Application Deadline: 8/14/20 | View Opportunity

Please see eligibility: Can submit only as a collaborator with a State agency. Eligible applicants are: 1. State departments of agriculture 2. State animal health agencies 3. State departments of wildlife or natural resources 4. Indian tribes. This list does not preclude award recipients from collaborating with other entities, such as land-grant or other universities.

Enabling Agricultural Innovations for Sustainable Food Security: Biotechnology and Seeds Systems in Asia and Africa
Application Deadline: 8/17/20 | View Opportunity

Promoting Science & Rules-Based Standards for Processed Food Ingredients in India & China
FAS’s mission is to create economic opportunity for American agriculture by expanding global markets. FAS collaborates with US regulatory agencies, land-grant universities, and private sector organizations to eliminate or reduce technical barriers encountered by exporters of US agricultural products to partner countries through the use of trade capacity building.
Application Deadline: 8/20/20 | View Opportunity

Low Cost Mobile CO2 Vaporization/Sublimator System Prototype
Requesting proposals for the development of a low-cost mobile CO2 vaporization/sublimator system prototype that can be used to meet the AVMA guidelines for depopulation of swine using carbon dioxide. Application Deadline: 8/4/20 | View Opportunity

SWINE HEALTH AND PRODUCTION—Foreign Animal Disease Surveillance
Research Objective: Develop validated diagnostic tests and sample types that can be used for surveillance and investigation testing for African swine fever, foot and mouth disease, classical swine fever, and swine vesicular diseases.
Application Deadline: 8/11/20 | View Opportunity
OSERS-OSEP: Technical Assistance on State Data Collection: National Technical Assistance Center to Improve State Capacity to Collect, Report, Analyze, and Use Accurate IDE
Application Deadline: 7/31/20 | View Opportunity

Novel Coronavirus (COVID-19) FAO’s Big Data Tool on food chains under the COVID-19 pandemic.

Grand Challenges for Development:
Powering Agriculture | Securing Water for Food | Water & Energy for Food
Future Scholars for Science, Technology, Engineering, & Mathematics (STEM) Workforce Development Programs

Tick-Borne Disease, Idea Development Award
Application Deadline: 8/27/20 | View Opportunity

Golden Field Office

RESEARCH AND DEVELOPMENT FOR ADVANCED WATER RESOURCE RECOVERY SYSTEMS
The goal of this opportunity is to conduct research, development, and deployment on technology innovations that enable advanced water resource recovery systems. Goals are to launch desalination technologies that deliver cost-competitive clean water; transform the energy sector’s produced water from a waste to a resource; achieve near-zero water impact for new thermoelectric power plants, and significantly lower freshwater use intensity within the existing fleet; double resource recovery from municipal wastewater; and develop small, modular energy-water systems for urban, rural, tribal, national security, and disaster response settings.
Application Deadline: 10/06/20 | View Opportunity DE-FOA-0002336

2020 State & Interstate Aquatic Nuisance Species Management Plan Grant Program
These comprehensive ANS Management Plans identify technical, enforcement, or financial assistance activities needed to eliminate or reduce the environmental, public health, and safety risks associated with ANS. ANS Management Plans focus on feasible, cost-effective management practices and measures to be undertaken by states to prevent and control ANS infestations in an environmentally sound manner.

Application Deadline: 8/1/20 | View Opportunity F20AS00034

**Multistate Conservation Grant Program**
Application Deadline: 8/7/20 | View Opportunity

**FY 2020 Candidate Conservation Action Funds**
Application Deadline: 9/4/20 (see opportunity for more details) | View Opportunity

**2020 National Fish Passage Program (NFPP)**
Application Deadline: 9/30/20 | View Opportunity

---

**Carbon Ore, Rare Earths and Critical Minerals (CORE-CM) Initiative for U.S. Basins**

**Estimating Children’s Soil and Dust Ingestion Rates for Exposure Science**
Application Deadline: 8/5/20 | View Opportunity
Capacity Building Developmental and Capacity Building Pilot
Application Deadline: 7/20/20 | View Opportunity

Development of Standard Core Clinical Outcomes Assessments & Endpoints
The purpose of this opportunity is to solicit applications for UG3/UH3 cooperative agreements to support the development of a publicly available standard core set(s) of COAs and their related endpoints for specific disease indications. The standard core set(s) can include different types of COAs (i.e., patient-reported outcome [PRO], clinician-reported outcome [ClinRO], observer-reported outcome [ObsRO], performance outcome [PerfO] instruments) and their related endpoints that assess a minimum list of impacts that matter most to patients, are likely to demonstrate change (including differences in trial arms related to disease burden, treatment burden, and if applicable, physical function) and should be reported in a clinical trial. A standard core set might be relevant across several disease populations or subgroups or be focused on attributes of a specific disease (a disease-specific or generic instrument that can adapted and applied more broadly across disease areas or across age groups).
Application Deadline: 8/21/20 | RFA-FD-21-004

Vet-LIRN Network Capacity-Building Projects
Application Deadline: 9/20/23 | PAR-18-604
**Media Projects**
Application Due Dates: 8/12/20 – 1/6/21 | View Opportunity

---

**NSF Coronavirus Information**
NSF is accepting proposals to conduct non-medical, non-clinical-care research that can be used immediately to explore how to model and understand the spread of COVID-19, to inform and educate about the science of virus transmission and prevention, and to encourage the development of processes and actions to address this global challenge.

The National Science Foundation has decided to extend some of our upcoming proposal deadlines.

**Statement on NSF Proposal Deadlines**

The NSF Convergence Accelerator program is hosting its first ever Expo, NSF CA Expo 2020 on July 1-2, 2020—a virtual meeting that provides an opportunity for all of the FY 2019 convergence accelerator projects to share information about their projects with the public. Anyone may attend, but everyone is required to register at: https://nsf.streamoligy.com/. Each project will have a virtual booth at the Expo. You will have the opportunity to visit each booth, watch five-minute videos about the project, and interact with project team members.

Foundations and Nonprofit

Searle Scholars Program *Limited Submission
Applicants for the 2021 competition are expected to be pursuing independent research careers in biochemistry, cell biology, genetics, immunology, neuroscience, pharmacology, and related areas in chemistry, medicine, and the biological sciences. Applicants should have begun their appointment as an independent investigator at the assistant professor level on or after July 1, 2019.

Notice of Intent Deadline: 7/20/20
Click here to submit your NOI through InfoReady
Application Deadline: 8/7/20 | View Award Information

*UTIA may submit one candidate to UT systemwide administration for consideration; UT will select one application for submission.

- [Office of Sponsored Programs](Funding Opportunities to Consider)
- [Hanover Higher Education Research Grant Alerts](Research Funding Opportunities)
  This [resource center](resource-center) link provides weekly updates. They have also set up a COVID-19 support email ([covid19-support@hanoverresearch.com](mailto:covid19-support@hanoverresearch.com)).

**Hanover Grants Calendar: COVID-19 Funding**

As part of our efforts to help institutions navigate the pandemic response, Hanover has produced a calendar on COVID-19-related funding opportunities. While many of the grants reviewed in this calendar are focused on medical research, we have included a broad range of opportunities from federal agencies, private foundations, and industry. We will continue to monitor COVID-19 funding through our weekly grant alerts, which are [open to the public to sign up.](https://mailchi.mp/b752c329fba0/osp-newsletter-07-14?e=1b92548c60)

We hope this calendar is a useful planning tool for your institution. Please access the document using the link below.

[COVID-19 Funding Calendar](https://mailchi.mp/b752c329fba0/osp-newsletter-07-14?e=1b92548c60)

If you have any questions or you would like to learn more about our work with these programs, please [contact Senior Grants Advisor, Clinton Doggett](mailto:aggrant@tennessee.edu), for a brief conversation.

*Please send suggestions and additional funding opportunities to [aggrant@tennessee.edu](mailto:aggrant@tennessee.edu).*
