NSF Coronavirus Information
NSF is accepting proposals to conduct non-medical, non-clinical-care research that can be used immediately to explore how to model and understand the spread of COVID-19, to inform and educate about the science of virus transmission and prevention, and to encourage the development of processes and actions to address this global challenge.

Beginning June 1, NSF will implement the Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 20-1) for proposals submitted or due on or after this date. As you may also be aware, NSF has delayed the requirement to use NSF-approved formats for the biographical sketch and current and pending support sections of NSF proposals until October 5, 2020. Proposers must continue to format these documents in accordance with PAPPG requirements (see PAPPG sections II.C.2.f and II.C.2.h). NSF encourages the community to use these formats and continue to provide valuable feedback as we enhance them for future implementation.

**Hanover Grants Calendar: COVID-19 Funding**

As part of our efforts to help institutions navigate the pandemic response, Hanover has produced a calendar on COVID-19-related funding opportunities. While many of the grants reviewed in this calendar are focused on medical research, we have included a broad range of opportunities from federal agencies, private foundations, and industry. We will continue to monitor COVID-19 funding through our weekly grant alerts, which are [open to the public to sign up](#).

We hope this calendar is a useful planning tool for your institution. Please access the document using the link below.
If you have any questions or you would like to learn more about our work with these programs, please contact Senior Grants Advisor, Clinton Doggett, for a brief conversation.

Please send suggestions and additional funding opportunities to aggrant@tennessee.edu.
