**Precision Indoor Plants (PIP) Seeks Research Applications for Premium Strawberry Flavors**

Food production faces challenges from climate change, competition for scarce resources, and supply chain disruptions. One solution is controlled environment...
agriculture, which grows a range of crops in controlled spaces and can enhance desirable traits in crops. This funding opportunity aims to build on existing strawberry research, including flavor research, to increase scientific understanding of premium flavors in strawberry and how flavorful strawberries can impact the controlled environment agriculture sector.
