Federal

Conservation Outreach: Racial Equity and Justice Conservation Cooperative Agreements
The purpose of this opportunity is to enhance Natural Resources Conservation Service and partner resources to assist historically underserved farmers and
local wildlife species of concern; improve the environmental and economic performance of working agricultural land; build and strengthen local food projects that provide for sustainable healthy food production and economic opportunities; and provide conservation planning that develops solutions to frequent and changing weather patterns.
Application Deadline: 10/25/21 | View Opportunity

Small Business Innovation Research (SBIR) Program Phase I
Projects dealing with agriculturally related manufacturing and alternative and renewable energy technologies are encouraged across all SBIR topic areas. USDA SBIR's flexible research areas ensure innovative projects consistent with USDA's vision of a healthy and productive nation in harmony with the land, air, and water.
Application Deadline: 11/3/21 | View Opportunity

Please see NIFA Upcoming RFA Calendar and email agrant@tennessee.edu to apply.

Early Career Research Program
The purpose of this program is to support the development of individual research programs of outstanding scientists early in their careers and to stimulate research careers in the areas supported by the Office of Science.
Application Deadline: 10/21/21 | View Opportunity
Ecology and Evolution of Infectious Diseases
The multi-agency Ecology and Evolution of Infectious Diseases program supports research on the ecological, evolutionary, organismal, and social drivers that influence the transmission dynamics of infectious diseases.
Application Deadline: 11/24/21 | View Opportunity

Pharmacokinetics and Pharmacodynamics of THC in Cannabis and Cannabis Products
The purpose of this Funding Opportunity Announcement is to support human and animal research on the pharmacokinetic and pharmacodynamic effects of 9-tetrahydrocannabinol (THC) that is present in cannabis and cannabis products.
Application Deadline: 2/10/22 | View Opportunity

Foundations

National Academy of Sciences (NAS) Prize in Food and Agriculture Sciences
The award recognizes extraordinary contributions to agriculture and understanding the biology of species important to food and agriculture production. The NAS Prize elevates food and agriculture research and
highlights the critical need for scientists working toward more productive, sustainable agriculture. Annually, we award the prize to one recipient, who receives a medal and a $100,000 cash award. Application deadline: 10/4/21 | View Opportunity

**ROARing Efforts to Address Unanticipated Threats**
This program deploys urgent funding to support research and outreach in response to emerging or unanticipated threats to the nation’s food supply or agricultural systems. Open Year Round | View Opportunity
