29th Milan No-Till Crop Production Field Day
with Crop Variety Demonstrations

Hosted by UT AgResearch
Thursday, July 28, 2016
7 a.m. - 2 p.m.

North Tract of the AgResearch and Education Center
Milan, Tennessee

731-686-7362
MILAN.TENNESSEE.EDU
The University of Tennessee
AgResearch and Education Center
at Milan

WELCOMES YOU
to the 29th Milan No-Till
Crop Production Field Day.

Since 1981, the Milan No-Till Field Day has hosted visitors from across the country and around the world to the largest field day in the nation dedicated to conservation tillage. In the beginning, we demonstrated how to “no-till” and basic tours on planter setup and weed control were available. Since those early years, the field day has progressed to not only include no-till basics but also to show producers how to incorporate the latest technologies into a no-till system.

One constant through the years has been the staff, both present and past, of the AgResearch and Education Center at Milan, and none of the 29 No-Till Field Days would have been possible without them. We have the privilege of working daily with some of the finest agricultural scientists in the world, but the behind-the-scenes efforts of our staff make the research program possible. They are a dedicated group of individuals who have a passion for agricultural research, doing the job right, and producing the very best data possible for our producers who utilize this information. Please allow me to introduce our staff to you and publicly thank them for the great job they do! The current staff of the AgResearch and Education Center at Milan includes:

We appreciate your attendance and interest today at the nation’s largest field day devoted to no-tillage crop production. We hope that you will learn techniques for increasing production, reducing expenses, and improving marketing skills or increasing the efficiency of your crop production operation.

We sincerely appreciate the support of the Milan community and all of its assistance with making this event a success since 1981.

The final pages of the program describe the amenities available during the activities and include a map of the field day site. Please let us know if we can assist you. It is our desire that you have an educational and enjoyable visit to the AgResearch and Education Center at Milan. Thank you for being one of the thousands to visit the nation’s largest No-Till Field Day!

Blake A. Brown
Center Director

UT Institute of Agriculture AgResearch
William F. Brown, Dean
Steve Oliver, Assistant Dean
Barry Sims, Associate Director
Blake A. Brown, AgResearch Center Director

Special thanks to UT Martin students Kassie Hooks and Kyle Birdwell for their design of the field day logos for this program and the field day hats, respectively.
Field Day Activities

AgResearch and Education Center at Milan Research Tours
This year, fifteen research tours, including the popular Crop Variety Demonstration, will be featured. Tours will start at 7:00 a.m. CDT, Thursday, July 28. The final tours of the day will start no later than 1:00 p.m. Most tour stops are approximately 20 minutes long and each tour may be completed in 1 hour and 20 minutes or less, depending on the number of stops and travel time between stops.

NOTE: Those desiring to take several tours should plan to arrive early. Complete descriptions of tours and tour stops begin on page 7.

AgResearch and Education Center at Milan Overview Tour
Visitors to the Milan No-Till Field Day are invited to participate in the AgResearch and Education Center at Milan Overview Tour for a brief introduction to UT AgResearch. Participants will be given a tour of the AgResearch and Education Center at Milan. Various research projects along the tour route will be described. Participants will board the vans near the announcer’s tent located south of the West Tennessee Agricultural Museum. This tour will last approximately 20 minutes and will be provided on request. Tours will be available from 10:00 a.m. through 1:00 p.m.

West Tennessee Agricultural Museum
The West Tennessee Agricultural Museum will be open throughout the No-Till Field Day events between the hours of 7:00 a.m. and 3:00 p.m. Large displays of antique farm equipment and tools used by early West Tennessee settlers are featured. The museum is located on the field day site. Admission is free.
Special Museum Feature: Agriculture Makes Life Possible
“A Journey Toward Ag Literacy,” an exhibition of the Ag in the Classroom resource materials used for training of teacher presenters, will be displayed in the West Tennessee Agricultural Museum. Sharing in this event will be various commodity group sponsors and volunteers of the Tennessee Foundation for Ag in the Classroom. Farm Bureau Women know how important it is to educate our young people on how our farmers provide food and other products needed in our lives and homes. An ice cream station, representing the dairy industry, also will be in the museum. The ice cream station is co-sponsored by the Gibson County Farm Bureau Women and the Tennessee Farm Bureau Federation.

Point Sign-up and Recertification Requirements for Commercial Applicators
Individuals who currently have a valid commercial applicator certification card must accumulate credit (points) during the three-year certification cycle to retain their certification into the next certification cycle. For more information concerning point requirements, please visit psep.utk.edu.

Tennessee’s Pesticide Coordinator has assigned recertification points for categories listed in the following table.

Commercial pesticide applicators MUST SIGN the sign-up sheets located at the tent where the tour is held to obtain credit. Remember to include as much information as possible and sign the roster sheet legibly and include your certification number.

Rosters containing attendee information will be forwarded to the Tennessee Department of Agriculture so attendees may receive recertification credit.
Certified Crop Advisor Program
Continuing Education Units

The Tennessee Certified Crop Advisor Board has approved the following Continuing Education Units (CEUs): 1.0 nutrient management, 2.5 soil and water management, 3.5 integrated pest management, 5.0 crop management, and 1.0 professional development. According to information available on the International CCA Program website, Tennessee approved CEUs are recognized by local boards in all states.

Nutrient management CEUs are available on Tour G; soil and water management CEUs are available on Tours C, D, and I; integrated pest management CEUs are available on Tours A, B, C, D, F, J, and M; crop management CEUs are available on Tours A, B, C, D, E, H, J, and M; and professional development CEUs are available on Tour L.

Certified Crop Advisors MUST SIGN the sign-up sheets located at the tent where the tour is held to obtain credit.
Tour A: No-Till Corn Production
Attendees should board covered trailers near the registration tent. Trailers will transport participants to the field where this tour will be held. Tents for shade and seating are provided. Tours depart every 20 minutes. Complete tour requires 1 hour and 20 minutes. Participants may attend Tour B: Soybean Variety Selection, Tour C: No-Till Soybean Production, or Tour D: No-Till Cotton Production in Tennessee without returning to the trailer loading area.

Tour F: Herbicide Trait Technologies

Attendees should board designated buses in tent area. Buses depart every 20 minutes. Tents for shade and seating are provided. Complete tour requires 30 minutes. Participants may attend Tour E: Beef—Integrating Crop and Cattle Production, Tour G: Soil Fertility and Nutrient Management, or Tour H: Precision Agriculture without returning to the bus loading area.

Numerous herbicide traits will be discussed including:
- Xtend Soybean
- Liberty Link Soybean
- Roundup Ready Soybean
- Inzen Grain Sorghum
- Xtend Cotton
- Enlist Cotton

Joyce Ducar
Extension Weed Specialist
Auburn University

Tom Mueller
Professor
UT Department of Plant Sciences
Tour G: Soil Fertility and Nutrient Management

Attendees should board designated buses in tent area. Buses depart every 20 minutes. Presentations are conducted in Shed 3. Complete tour requires 1 hour. Participants may attend Tour E: Beef—Integrating Crop and Cattle Production, Tour F: Herbicide Trait Technologies, or Tour H: Precision Agriculture without returning to the bus loading area.

Tour O: Farmers vs. Hunger

Sponsored by:

Hunters Sharing the Harvest
Tennessee Soybean Promotion Council
Cargill
Farm Credit Mid-America
Outreach Inc.

Other sponsors will be listed at the Field Day.

On-site Coordinator:

Chuck Danehower
UT Extension Area Specialist—Farm Management

This tour will run continuously from 9:00 a.m. to 2:00 p.m. Stop by the West Tennessee Agricultural Museum, cool off from the hot sun, and participate in the Farmers vs. Hunger tour stop. This stop is a unique blend of what can be accomplished when farmers and others in the agricultural community come together to address the needs of those who are in need. This stop features a hands-on activity in the form of an assembly line where participants will put together a soy meal protein and vitamin-enhanced macaroni and cheese product that is a substantial meal for children and adults. The soybean ingredient is a vital component of this nutritious and affordable meal. Soybeans are grown on 1.7 million acres in Tennessee and are the largest row crop in the state.

In Tennessee, 16.9 percent of the state’s population, including 24.0 percent of the children, are food insecure and can’t afford enough food to consistently meet their basic needs. The meals packaged at this tour will be distributed to food banks and food pantries throughout the local area. Stop in and help stamp out hunger while attending the Milan No-Till Field Day. Activities will begin at 9:00 a.m. and will continue throughout the day.

Amenities

Field Day Parking
General parking area will be at the No-Till Field Day site near the West Tennessee Agricultural Museum. Follow the signs.

Handicapped persons will have a special designated parking area near the Registration Tent to facilitate needs.

Signs will be posted with parking directions.

Food and Refreshments
Food and drink will be available throughout the No-Till Crop Production Field Day. The food tent will be located near the exhibit area. Light breakfast items will be available. Lunch items will include Tennessee barbecue, hamburgers, hot dogs, polish sausage, barbecue bologna, boneless chicken breast, fresh fruit, slaw, chips, baked beans, and soft drinks. Lighter food, such as deli/sub sandwiches, also will be offered. Local restaurants are also in the vicinity of Milan.

Water coolers and restrooms will be available at many locations over the entire North Tract of the AgResearch and Education Center at Milan.

Medical Assistance
Emergency medical care and treatment by trained staff will be available near the registration tent.

Aviation Information
The Gibson County Airport is located six miles west of Milan. Asphalt runway 1/19 is 4,800 ft. x 75 ft. Call 731-686-1524 for information.

The McKellar-Sipes Regional Airport is located 30 miles south of Milan in Jackson, Tennessee, on Airways Blvd./Highway 70. For information call, U.S. Aviation Services - FBO at 731-427-0191, Jackson Control Tower - FAA at 731-425-9430, or Airport Authority at 731-423-0995.

Memphis International Airport is approximately 100 miles southwest of Milan, in Memphis, Tennessee. For more information call 901-398-3900.

Nashville International Airport is located approximately 145 miles east of Milan, in Nashville, Tennessee. For more information call 615-275-1675.
We look forward to seeing you at the 30th Milan No-Till Field Day scheduled for Thursday, July 26, 2018
